Date

A copy of each of the references is submitted herewith along with Form PTO-1449.

The enclosed references were cited by the European Patent Office in connection with the prosecution of P.C.T. International Application No. PCT/GB98/01211, of which the instant U.S. patent application represents the U.S. National Phase of said P.C.T. international patent application.

Of the foregoing references, German Patent Application No. 196 54 034 was published on July 31, 1997, which is subsequent to Applicant's claimed date of foreign priority, which is April 25, 1997, and this therefore not citable as "prior" art against the claims of the instant U.S. patent application. A copy of German Patent Application No. 196 54 034, which was listed in Category "P" by the European Patent Office, acting as the International Search Authority, is included with this Information Disclosure Statement for the purpose of completeness and is not, and should not be construed, as an admission that such reference is citable as prior art.

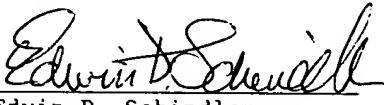

The accompanying references relate generally to cutters for sheet material generally known to the prior art.

These citations do not constitute an admission by Applicant that the references are relevant or material to the patentability of the claims.

Inasmuch as the present Information Disclosure Statement is being filed prior to issuance of a first Office Action on the merits, no fee for its submission is submitted to be due.

Respectfully submitted,

MUNTAZ SHAH
